SUMMARY

Fullstack developer with 4+ years of experience shipping fast, secure web products — merchant onboarding platforms, payment gateway integrations, trading APIs and CMS dashboards. Currently building fintech at iMoneyPay with Next.js and Node.js.

EXPERIENCE

Fullstack Developer

Jan 2026 – Present

I Money Pay Pvt. Ltd.

- Building the merchant onboarding platform in Next.js — multi-step KYC application journeys, document uploads and real-time application status tracking.
- Developed the admin console with Maker → Checker → Approver → Risk → Operations queues, role-based access, discrepancy handling and block/unblock workflows.
- Integrated backend APIs that push approved merchants to the payment gateway and bank-verification systems, with automated daily status emails.
- Built and integrated payment gateway (PG) plugins for e-commerce platforms — webhooks, callbacks, refunds and secure transaction handling.
- Handle merchant onboarding & support, UAT and end-to-end API testing with Postman, and sprint tracking in JIRA.
- Built and enhanced onboarding websites and dashboards with live analytics, PG health monitoring and dark mode.

Frontend Developer

Jan 2025 – Jan 2026

ITSTARPAY Pvt. Ltd.

- Designed and developed dynamic websites — e-commerce platforms, payout solutions and custom CMS dashboards.
- Built and customised payment gateway plugins (Razorpay and others) with secure transactions, webhooks, refund flows and gateway compliance.
- Built a Kotak Trading API platform with real-time market data, order placement, portfolio tracking and secure API auth.
- Shipped a secure onboarding dashboard & CMS with PDF generation, e-sign preview/download and automated admin emails.
- Integrated GitHub and AWS S3 for document storage plus webhook-based real-time authorisation and spam blocking.
- Managed and maintained 150+ websites — hosting, networking, security and confidentiality.
- Handled client communication, requirement gathering and team management.
